Rediscover youthful radiance and experience the benefits of a professional peel at home in just eight minutes with ARTISTRY® intensive skincare renewal peel. After just one use, 93% of women felt softer, smoother skin.

Retail Price: $99.50

SUMMARY

Description

The science behind the smooth is our breakthrough mushroom enzyme. Working in harmony with your skin, this powerful peel naturally resurfaces without the need for harsh chemicals. Adapting to the user’s unique skin condition, exfoliation will cease when the pH reaches 5.5, delivering optimal, professional-level benefits and a more radiant complexion with every application.

In one step, intensive skincare renewal peel lets you experience the benefits of a professional chemical peel at home without the risk or recovery time. After just one use, skin is smoother, softer, and radiance is restored. With continued use, over time fine lines and age spots begin to fade and skin becomes firmer with smaller-looking pores.

Benefits

After just one use in clinical and consumer testing:

- 93% of women agreed skin looks and feels softer and smoother.

After six weeks in clinical and consumer testing:

- 100% saw an improvement in skin smoothness and texture.
- 84% saw more radiant skin.
- 84% raved that their skin looked younger.

Tocopheryl Acetate, Xanthan Gum, Calcium Chloride, Fragrance/Parfum, Hydroxyethylcellulose, Panthenol, Lecithin, Polysorbate 20, Sodium Citrate, Glucose, Glyceryl Acrylate/Acrylic Acid Copolymer, Propylene Glycol, Chondrus Crispus (Carrageenan), Pvm/Ma Copolymer, Sodium Hyaluronate, Glycine Soja (Soybean) Oil, Ceramide 3, Limnanthes Alba (Meadowfoam) Seed Oil, Beta-Sitosterol, Perilla Ocymoides Seed Oil, Salvia Hispanica Seed Oil, Oenothera Biennis (Evening Primrose) Oil, Helianthus Annuus (Sunflower) Seed Oil, Tetrahexyldecyl Ascorbate, Zea Mays (Corn) Oil, Sesamum Indicum (Sesame) Seed Oil, Macadamia Integrifolia Seed Oil, Olea Europaea (Olive) Fruit Oil, Limonene

**Competitive Information**

ARTISTRY® beats the competition with the only one-step peel to deliver professional benefits without harsh chemicals or irritation.

Professional Peels:
- Can cost up to $350.
- Can include up to five days of recovery.

Over-the-counter Peels:
- Take two or more steps using chemicals or acids.
- Carry the risk of over- or under-peeling.
- Carry the risk of irritation and inflammation.

**ARTISTRY intensive skincare renewing peel:**
- Uses exclusive mushroom enzyme.
- Completes results in one easy step.

**Frequently Asked Questions**

1. What is ARTISTRY® intensive skincare renewing peel?
   ARTISTRY intensive skincare renewing peel is a targeted, at-home treatment that delivers benefits comparable to a professional chemical peel. Formulated with a naturally derived mushroom enzyme, it works with the skin to reveal a softer, smoother, more radiant complexion in just eight minutes.

2. What does intensive skincare renewing peel add to the ARTISTRY product portfolio?
   Many women have been seeking professional skincare treatments such as a chemical peel. ARTISTRY intensive skincare renewing peel meets that need and delivers benefits comparable to a professional treatment in an at-home peel with a much gentler process.

   Additionally, we know that exfoliation is a key step in any skincare routine. Used twice weekly, intensive skincare renewing peel provides a new level of gentle exfoliation that helps reveal fresher, healthier-looking skin.

3. What makes this peel different?
   Peels you might find at a department store typically require several steps. First, you apply an exfoliating product, and then you apply a neutralizing product in order to stop the process. This can make it too easy to either under-peel and not get optimal results by stopping the process too soon or over-peel, which can cause irritation, inflammation, and downtime for your skin to recover.

   **Intensive skincare renewing peel** takes the guesswork out of the peel process with a one-step application that delivers benefits comparable to a professional peel. It takes a completely unique approach to retexturing the skin – using an exclusive mushroom enzyme to gently remove the surface of rough skin layers without harming the fresh luminous skin below. **Intensive skincare renewing peel** is also unique because it naturally adjusts to the skin and actually knows when to turn itself off, so you'll get optimal results every time you use it without the risk or without any recovery time.

4. What is an enzyme?
   Enzymes are natural proteins. They work by increasing the rate of reactions in the cells to improve the functioning and performance of the skin. With **intensive skincare renewing peel**, that means the unique mushroom enzyme works with your skin, breaking down protein bonds that hold dead cells at the surface and helping your skin improve its own natural cellular turnover.

5. What makes the enzyme found in intensive skincare renewing peel special?
   The enzyme in intensive skincare renewing peel is unique in that it adjusts to the skin’s pH levels. First, the outer layer of the skin has a natural pH of 4.5. The inner layers are made up of living skin cells with a higher pH of 5, 6, and 7.

   When **intensive skincare renewing peel** is applied to the skin, its mushroom enzyme reacts to these different pH levels. It's very effective on the surface where the pH is 4.5, but becomes inactive at a pH of 5.5 or higher. That means
that it helps remove dead skin cells at the surface but then automatically shuts itself off as soon as it’s exposed to the healthy, living skin cells with a higher pH. This helps avoid the risk of over-exfoliating.

6. How is intensive skincare renewing peel different from other ARTISTRY products that provide skin exfoliation, and how can I use these products together? Use of daily exfoliation products like TIME DEFIANCE® Skin Refinishing Lotion and essentials alpha hydroxy serum plus will help boost and maintain the results of intensive skincare renewing peel. However, you should stop using the ARTISTRY Microdermabrasion System or ARTISTRY essentials polishing scrub while you’re using the peel. Within one to two days, you can start adding these products back into your skincare routine.

**Daily-use products** – pick one for daily use*

- ARTISTRY TIME DEFIANCE Skin Refinishing Lotion: Natural and gentle exfoliation with oats, not acids. Safe for sensitive skin. Results improve over time.
- ARTISTRY essentials alpha hydroxy serum plus: Uses alpha hydroxy acids for optimal effectiveness and oat extract to soothe. Results improve over time.

**Weekly-use products** – Pick one for use twice weekly

- ARTISTRY essentials polishing scrub: Removes just the top layer of the dead skin cells. Immediate results.
- ARTISTRY intensive skincare renewing peel: Removes the dead skin layers on the surface until the peel neutralizes with the pH of live skin cells. Instant and long-term benefits comparable to a professional chemical peel.

*Do not use these products the day you use the occasional-use products.

7. My skin tingles after applying intensive skincare renewing peel. Is that because my skin is sensitive? Is this OK? A tingling sensation is expected for some users, typically those with more sensitive skin. This tingling is not cause for concern and is a normal sensation to experience when using renewing peel. However, if the tingling causes skin irritation, wash off the product and discontinue use.

8. How does intensive skincare renewing peel fit in with the other ARTISTRY skincare systems and treatment products? ARTISTRY intensive skincare renewing peel is the first product launched within the intensive skincare line. This line will feature targeted anti-aging skincare treatments for anyone seeking the benefits of professional treatments without the cost and risk.

Intensive skincare also offers an additional approach to anti-aging skincare not currently covered by the existing product portfolio and complements the other ARTISTRY products.

**More Information**

**Use Instructions**
Add intensive skincare renewing peel to your ARTISTRY skincare routine to reveal and maintain fresh, radiantly younger-looking skin.

Cleanse
Renew with intensive skincare renewing peel
Tone
Treat
Moisturize

For optimal results, apply intensive skincare renewing peel twice weekly on non-consecutive days. Thoroughly cleanse and dry skin, then smooth a thin layer of product over the face, avoiding the eye area. Leave for eight minutes (product may not dry completely). Before rinsing, gently massage skin with wet fingertips to assist with exfoliation. Rinse thoroughly with warm water and pat dry. Follow with toner and moisturizer. You’ll achieve optimal results in just six weeks.
